

This last Tuesday, Sept 7, CBS aired Dan Rather who abused the public trust with false and misleading reporting that was a clear example of black propaganda in the name of honest journalist reporting. This abuse needs to be investigated and corrected. Dan Rather has attempted to palm off forged government documents as real documents in an attempt to influence the upcoming national election and CBS is standing by this attempt, maintaining that this is honest journalistic reporting. These falsified documents are illegal and the source of their forging needs to be discovered and prosecuted. This abuse has violated me and my family's human rights. Dan Rather and CBS should not be allowed to send false propaganda through the public airwaves under the guise that they are using.
